

KNX System components – from the control cabinet to the room.

KNX stands for connectivity, flexibility and future-proofing. It enables the seamless integration of a wide range of devices and systems, regardless of the manufacturer. This means that lighting, heating, ventilation, security systems and other functions can communicate with each other and be controlled centrally. With the introduction of our new KNX system components, we now cover the entire range of sensors, power supplies, couplers, switching/blind actuators, dimming actuators and DALI gateways. These components form the backbone of every KNX system and make it possible to cater to the individual requirements and needs of a building. **And all with a 5-year manufacturer's guarantee.**

KNX Secure

We encounter data protection every day and it has become an integral part of communication. But what about your KNX installation? Have you ever wondered whether your KNX installation is really secure? With our new KNX actuators/interfaces, we are also making the KNX world a little more secure. Secure? Safe!

System Devices

P640 KNX
Power Supply 640mA
EAN [4007841 084882](#)

P1280 KNX
Power Supply 1280mA
EAN [4007841 085667](#)

USB100 KNX
USB Interface
EAN [4007841 085674](#)

ALC100 KNX-S
Area/Line Coupler
EAN [4007841 085643](#)

Light Control

DALI64 KNX-S
1-ch DALI-Gateway
EAN [4007841 089207](#)

DALI128 KNX-S
2-ch DALI-Gateway
EAN [4007841 089214](#)

DIM4 KNX-S
4-ch Dimming Actuator
EAN [4007841 089191](#)

Universal Actuators

UA6 KNX-S
6/3-ch Universal Actuator
EAN [4007841 089160](#)

UA16 KNX-S
16/8-ch Universal Actuator
EAN [4007841 089177](#)

UA24 KNX-S
24/12-ch Universal Actuator
EAN [4007841 089184](#)

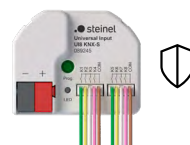

Universal Interfaces

UI2 KNX-S
Universal Interfaces Secure
EAN [4007841 089221](#)

UI4 KNX-S
Universal Interfaces Secure
EAN [4007841 089238](#)

UI8 KNX-S
Universal Interfaces Secure
EAN [4007841 089245](#)
