Function description

Attractively priced starter model with two heat settings for all applications involving hot air without reduction nozzles. Applications for thawing, drying, tin-plating, for speeding up bonded joints, stripping paint without producing dust. Settings: Temperature and airflow can be adjusted via switch setting. For applications up to approx. 500°C. Features: Ergonomic grip handle, heavy-duty rubber-sheathed cord, low weight.

Technical specifications

Output	1400 W	Replaceable heating element	No
Temperature	300 – 500 °C	Restart protection	No
Airflow rate	240 – 450 l/min	Thermal cut-out	Yes
Motor, type	Brush motor	Thermostat	No
Function, life expectancy, motor	400 h	Cord length	2.2 m
Temperature setting	2-stage	Dimensions (L x W x H)	230 x 75 x 195 mm
Heating element	Micanite heating element	Mains power supply	230 V / 50 – 60 Hz
Loc function	No	PU1, net weight	0,616 kg
Residual heat indicator	No	Manufacturer's Warranty	3 years
Function, hanger	No	PU1, EAN	4007841345914
