## Function description

Everything used to be better. Almost everything. We have added a little nostalgia to the L 15 wall lamp. It is made of high-quality, UV-resistant plastic and has nostalgic details that are reminiscent of times gone by. The timeless design blends harmoniously into any environment and gives your outdoor area a special atmosphere. The outdoor lamp is equipped with an E27 socket that supports incandescent lamps with a maximum power of 60 W as well as energy-saving lamps or LED bulbs with a maximum power of 20 W (bulbs not included). This gives you the freedom to choose the appropriate light source according to your personal preferences and needs. To enable you to mount the luminaire without any problems, we supply you with the necessary mounting accessories right away. To protect the environment, the luminaire is packaged plastic-free, so you get a high-quality product without a guilty conscience. Also available as a version with sensor.

## Technical specifications

Dimensions (L x W x H)	243 x 188 x 404 mm
With lamp	No
