Function description

Our flattest presence detector. Now even smaller in flush-mounted box format. By popular demand. The extra-flat IR Quattro SLIM XS presence detector virtually disappears into the wall or ceiling. Thanks to the new and practical flush-mounted box format, it forms a strikingly unobtrusive symbiosis with the office environment and can now be installed in any commercially available flush-mounted box. In short: our flattest presence detector just pretends not to be there at all - and yet is absolutely present when it matters. Adjustment via remote control or Smart Remote. Round aperture is additionally enclosed.
