Function description

The robust and weatherproofed extension cable in three different lengths allows you to lay your 24V garden lighting system individually and flexibly - without any groundwork. Thanks to Plug & Play, it effortlessly connects your 24V garden lights to each other and to the matching power supply unit. Optional connectors such as T-connectors or cross connectors create almost unlimited possibilities for stylishly illuminating your garden just the way you want it.

Technical specifications

With lamp	No
