Function description

Solar light for the evening hours. The XSolar L 44 solar light sets walls, entrances and façades in the right light – without the need for a fixed power connection. Its distinctive anthracite-coloured frame surrounds the bright light surface and gives the light a modern, clean look. The included house number stickers also make it a practical house number light. As soon as the brightness falls below the threshold of 2 lux, the integrated twilight sensor automatically activates the light. Two light programmes are available depending on the desired application: In evening mode, the XSolar L 44 lights up for approx. 4 hours and then switches off automatically. Alternatively, a reduced night light provides subtle orientation around the entrance area until the morning hours. The brightness is automatically adjusted depending on the battery charge level. For areas where the light should also be activated by movement, the XSolar L 44 S with motion detector is available.

Technical specifications

Dimensions (L x W x H)	99 x 240 x 180 mm
With lamp	Yes, STEINEL LED system
With motion detector	No
Manufacturer's Warranty	3 years
Settings via	Potentiometers
Version	with twilight switch
PU1, EAN	4007841091989
Application, place	Outdoors
Application, room	outdoors, front door, all round the building
Colour	Anthracite
includes sheet of self-adhesive numbers	Yes
Installation site	wall
IP-rating	IP44

Housing material	Aluminium
Cover material	Plastic, opal
Power supply, detail	Lithium-iron-phosphate rechargeable battery 2000 mAh
Photo-cell controller	Yes
Luminous flux total product	4 lm
Colour temperature	3000 K
Lamp	LED cannot be replaced
Soft light start	No
Twilight setting	2 lx
Basic light level function	Yes
Basic light level function time	OFF, all night, 4 hrs
Output	0,13 W
Product category	Solar light
Notlichtfunktion	without
