

Accessory

HG Scan for HG 2620 E

EAN 4007841 007553

CE

VDE

Function description

Full control of temperature when working on temperature-sensitive objects. The HG Scan PRO senses the temperature on the workpiece surface by infrared measurement. Ideal distance defined by laser. Acoustic and visual warning if temperature exceeds or falls below the optimum level. Temperature measurement range 0 – 300 °C, adjustable in 10°C steps. Suitable for HG 2620 E hot air tool.

Technical specifications

| | |
|---------------------------------|---|
| Temperature measurement range | 0-300°C, adjustment in 10°C steps |
| Temperature scan | via Sensor |
| Optimum distance from workpiece | 10 cm |
| Work-area marking | with LED light beam |
| Emission level | User-selectable, adjustable from 0.10 to 0.99 |

| | |
|-------------------------|----------------------|
| Power supply, detail | via the hot air tool |
| Dimensions (L x W x H) | 95 x 95 x 153 mm |
| PU1, net weight | 0,12 kg |
| Manufacturer's Warranty | 1 year |
| PU1, EAN | 4007841007553 |
