

# COEUS™ Building Intelligence & Centralized Control Platform Sets the Mood. Sets the Scene.

## Steinel America Case Study

### Products Used:

- 1 COEUS PC & License
- 14 DCS Connect Controllers
- 9 DT Quattro DCS Sensors
- 2 DS1 DCS
- 1 DS-SS3 DCS
- 2 COUES Tablet Package
- 1 DCS Repeater Kit
- 2 DS2 DCS - Black
- 1 NF1 DCS
- 1 SS2 DCS
- 1 SC4 DCS
- 10 DT WLS 1 - White
- 2 DT WLS DIM - White
- 3 IS 3180 DCS Sensors

**Project:** COEUS Building Intelligence & Centralized Control Management Platform installed in a Retrofit Project, Justice-Involved Youth Restaurant and Training Program

**Client:** Café Momentum

**Location:** Atlanta, GA

**Year:** 2025

**Challenges:** Retrofit of Existing Space, Needed Update for a New Business and to Transform the Space to a Create a "Mood Environment"

**Solution:** Install COEUS and the Digital Control Solution with a Touchscreen Allowing Full Dimming Capabilities along with the Ability to set Multiple Lighting Scenes

**Key Benefits:**

- Ease of Onsite Installation and Use
- Automated Scheduling
- Tablet Package & Interface Capabilities
- Digital Integrated Operating System
- Dimming
- Scene Control
- Sales and Technical Support

# COEUS™ Building Intelligence & Centralized Control Platform Sets the Mood. Sets the Scene.

## Steinel America Case Study

### Challenge:

In the design phase of Café Momentum, it was clear that creating the mood was going to be essential to the functionality and aesthetics of the upcoming restaurant. The challenge for this space was the fact that it was a retrofit and it needed to operate in multiple capacities compared to the standard restaurant. The entire space truly needed to be transformed to create a “mood environment” where lighting would play a crucial part in the space.

## Steinel America Case Study

### Solution:

With a unique restaurant design and where other additional unique spaces are needed, such as a youth lounge in a retrofit building, there were also additional specific requests that add another level to the required solution, such as a tablet system and the need for dimming. These will aid in setting the intended “mood environment,” allowing for different light levels in different spaces and the ability to do it together in one operating system makes this solution smart and immediately digital.

With the request for a touchscreen system and ease of function in mind, taking the entire project requests, challenges and needs into account, it instantly required that COEUS be used on site. COEUS is Steinel America’s building intelligence and centralized control platform and adding it to the project allows the building to operate as one unit and as individual rooms when each scenario is needed. Implementing COEUS into the project along with the Digital Control Solution (DCS) room controller gave the flexibility to provide specific solutions to specific designated areas for the best cost. In addition, it allowed for sleek DCS sensors and wall switches, adding to the design aesthetic, not taking away from it. The digital wall switches can be preprogrammed for scene control and have dimming capabilities that the standalone wall switches would not. Standalone wall switches were used in areas that simply needed an automatic on/off like restrooms. Overall, the project turned out to be a great fit for Steinel America’s products and turned out to be a great fit for the restaurant’s owners’ vision and needs.

### The Mission:

“Café Momentum’s mission is to transform young lives by equipping community’s justice-involved youth with life skills, education and employment opportunities to help them achieve their full potential.”

“We create opportunities for justice-involved youth through an ever-expanding network of award-winning restaurants and training programs. Youth, ages 15–19, gain industry skills and a strong support system. Restaurants alone can’t transform the juvenile justice system, but they can reshape communities and futures—one meal, one person at a time.”

— Café Momentum Website

If you wish to support Café Momentum and their mission, please visit one of their locations in Dallas, Atlanta, Pittsburgh, and soon-to-be Denver, opening 2026 or visit their website at: [cafemomentum.org](https://cafemomentum.org)
