

A system for cordless freedom – compatible with all manufacturers.

The Cordless Alliance System (CAS) is a cross-manufacturer battery system created by leading power tool brands. Now, a wide variety of professional jobs can be performed quickly and flexibly – from standard to special applications.

Facts about the CAS battery:

- Powerful 18-volt battery for professional users
- LiHD technology with up to 10 Ah
- Operate machines from more than 25 manufacturers with one battery

An all-round perfect match:
100 % compatibility for over 280 machines in the 18V class!

Battery power for roofers.

Four strong brands for the CAS system

Our vision: the cordless construction site

Now you can combine machines, battery packs and charging devices from different manufacturers without a problem. This not only saves you the need to purchase batteries and charging devices, but also conserves valuable time, money and the environment.

Advantages for tradesmen:

- Largest cross-manufacturer battery system
- 100% compatibility
- High versatility
- Save money
- Save time
- Save resources

Woodworking

MAFELL is a premium manufacturer of hand-operated machines and power tools for professional wood-working that offers the user innovative solutions, precision, performance and durability.

Battery-powered cross-cutting saw KSS 60 18M bl

- with a powerful 18-volt battery, the KSS 60 18M bl is ideal for working on scaffolding and rooftops.

Welding roof sheeting

For welding thermoplastic roof sheeting. Wherever small improvements need to be made quickly and flexibly.

mobile heat mh5

- ready for use in less than four seconds
- continuous temperature adjustment from 50 to 500°C
- airflow control in six stages (up to 300 l/min)

Sheet metal working

For cutting flat and corrugated sheet metal. Even interior cut-outs and notches are easy to cut, as the machine can be rotated in situ.

Nibbler TruTool N 200

- for sheet metal thicknesses up to 2 mm
- with additional tool for trapezoid and profile cutting

Nailing roof elements

Battery-powered pneumatic nibbler for nails up to 100 mm in length – no gas, power cable or compressed air hose required.

PKT-8-RKP100 / PKT-8-PR100

- for round-head strip nails Type RKP 65–100 mm
- for half-head strip nails Type PR 65–100 mm
