

A system for cordless freedom – compatible with all manufacturers.

The Cordless Alliance System (CAS) is a cross-manufacturer battery system created by leading power tool brands. Now, a wide variety of professional jobs can be performed quickly and flexibly – from standard to special applications.

Facts about the CAS battery:

- Powerful 18-volt battery for professional users
- LiHD technology with up to 10 Ah
- Operate tools from more than 30 manufacturers with one battery

An all-round perfect match:
100% compatibility with over 300 tools in the 18 V class!

Battery power for car wrappers.

Three strong brands for the CAS system

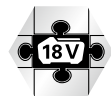

Our vision: a cordless construction site

You can now combine tools, battery packs and chargers from different manufacturers without a problem.

This not only saves you the need to purchase batteries and chargers, but also conserves valuable time and money, while protecting the environment.

Advantages for tradespeople:

-  Largest cross-manufacturer battery system
-  100% compatibility
-  Exceptional versatility
-  Save money
-  Save time
-  Save resources

One battery system –
over 300 machines

Tempering films

For finishing films on edges and expansion areas. The battery operation gives the film technician maximum freedom of movement and allows them to work quickly and safely, even in difficult-to-reach places.

mobile heat MH3

- Ready immediately: from 0 to 300 °C in 5 seconds
- Powerful with up to 200 l/min. right where it's needed
- Airflow control in two stages

Removing films

The tape can be used to fully remove old films and adhesive residues. As such, the paintwork remains completely undamaged.

MBX® Vinyl Zapper® Ultimate

- No paint damage to OEM paint surfaces
- Fast, easy operation – reduces workload by more than 60%.
- Free from wear
- 100% CAS-compatible
- With patented quick-release fastener

Illuminated all around

For illuminating the work area – battery-powered construction floodlight with 10,000 lumens for large-area and uniform working light with reduced shadows.

BSA 18 LED 10000

- Cordless and mains operation possible for continuous operation in the working environment (mains cable can be removed)
- Stepless dimmer function for optimal light with maximum battery run time
- Protected from dust and splash-proof for demanding building site use (IP 54)
