Four series – which one suits you best?

Across the four series, we have the most suitable product for every user. Craft lovers, DIYers and tradespeople will always find the perfect hot glue gun. The modern design and best ergonomics take hot gluing to the next level.

1

Proven technology for craft lovers and DIYers.

3

The right choice for ambitious DIYers.

5

For professional tradespeople who work quickly and flexibly.

7

Used on a daily basis by heavy users.

Made for makers.

Valued for their long service life, ease of use, excellent performance and built for everyday use – these are STEINEL tools. All over the world, they inspire professional tradespeople, craft lovers and everyone who wants to stick at the “next level”.

Heat at Work. Hot gluing. The Original.

Whether for work or your hobbies and leisure – every hot glue gun encompasses our decades of expertise, manufactured in our own factories.

Ensuring the best connections for over 30 years.

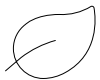

Own plants in Europe

Adjustable temperatures

We are technology leaders in the thermo-tools sector and hold over 100 patents
steinel.de

Solvent-free glue sticks reduce environmental pollution & health risks

A battery-powered world.

Whether you opt for built-in Li-ION batteries or rechargeable batteries that form part of the 18V alliances (e.g. Power For All (PFA) by Bosch and CAS by Metabo), our tools are particularly powerful and durable.

LI-ION

MobileGlue 1007-S

The Li-ION battery heats up quickly and can be charged via USB.

LI-ION

MobileGlue 1007

The Li-ION battery heats up quickly and can be charged via USB.

ALL 18V ALLIANCE

MobileGlue 3011

The POWER FOR ALL alliance battery offers maximum flexibility and up to 100 minutes of gluing power.

CAS

MobileGlue 5011

The battery is compatible with over 300 tools from the Metabo CAS alliance. Up to 90 minutes of gluing power.

A flexible system that saves money.

Machines, battery packs and charging devices from different manufacturers can now be combined seamlessly. This not only saves you the need to purchase batteries and charging devices, but also saves valuable time and money, while protecting the environment.

The advantages of the Power For All alliance:

100% compatibility

Highly flexible

Saves money and protects resources

Many areas of application

Many years of battery expertise

Low temperatures. For young and old craft lovers alike.

Safe crafting fun for the whole family – with STEINEL's first low-temperature gun. Craft lovers in particular often work with temperature-sensitive materials such as polystyrene and film. Combined with our LowMelt Sticks, the newly developed GlueMatic 1007-LT is perfectly suited for such requirements. Whether for schoolwork, crafts or DIY projects, this hot glue gun does not restrict the creativity of young and old alike.

85°C
family-friendly

GlueMatic 1007-LT

Precise. Handy. 85 °C.

Effortless arts and crafts for young and old: The new GM 1007-LT is hot but, for the first time, not too hot. This entry-level unit for the whole family ensures great bonding results in no time at all and at a low temperature of 85 °C.

Made to be held.

The STEINEL gluing system for professionals.

For everyday use and special requirements – here, professional users will always find the right glue stick for their work and to ensure perfect results.

- Rapid early strength and high final strength
- All STEINEL glue sticks are solvent-free, non-toxic and have no organic compounds whatsoever
- No odour or mould formation
- Our glue sticks have a long shelf life

Hot glue guns for the professional gluing system.

The temperature of the hot glue gun and the melting point of the glue sticks must be matched. These hot glue guns meet the requirements for perfect gluing results using different adhesives.

Heatworkers with a passion.

Behind our innovative products, you will find people who are passionate about making good things better and better. And so, every day, our tools ensure that users around the world achieve the best results for their projects.

Have you got an exciting heat project planned?

Then why not show us what you do with our tools and enjoy exclusive access to additional benefits?

1.

Become a heatworker and present your project.

Whatever you do with heat – share pictures or videos of your heat project with us, showcasing your favourite tool. We are curious to see what you are heating up and how.

Simply scan the QR code and upload straight away.

2.

Share your heat project with us and the community.

Upload pictures/videos of your heat project via our website or share them on Instagram [@steinel_tools](#) and use the hashtag [#HeatAtWork](#).

Coming soon.

High temperature, maximum control. Hot air can be used in countless ways. Hot air is used for loosening, welding, shaping, joining and much more, both in the private sector for all handicraft work and ambitious DIY projects, as well as in trade and industry. We will launch our completely revised and newly designed hot air series in 2024.

Development, production and warranty – all from a single source.

Developed in Germany and produced in our own European factories, we are confident in the quality of our products. For this reason, we provide up to 3 years manufacturer's warranty on our DIY tools and also have our own repair service.

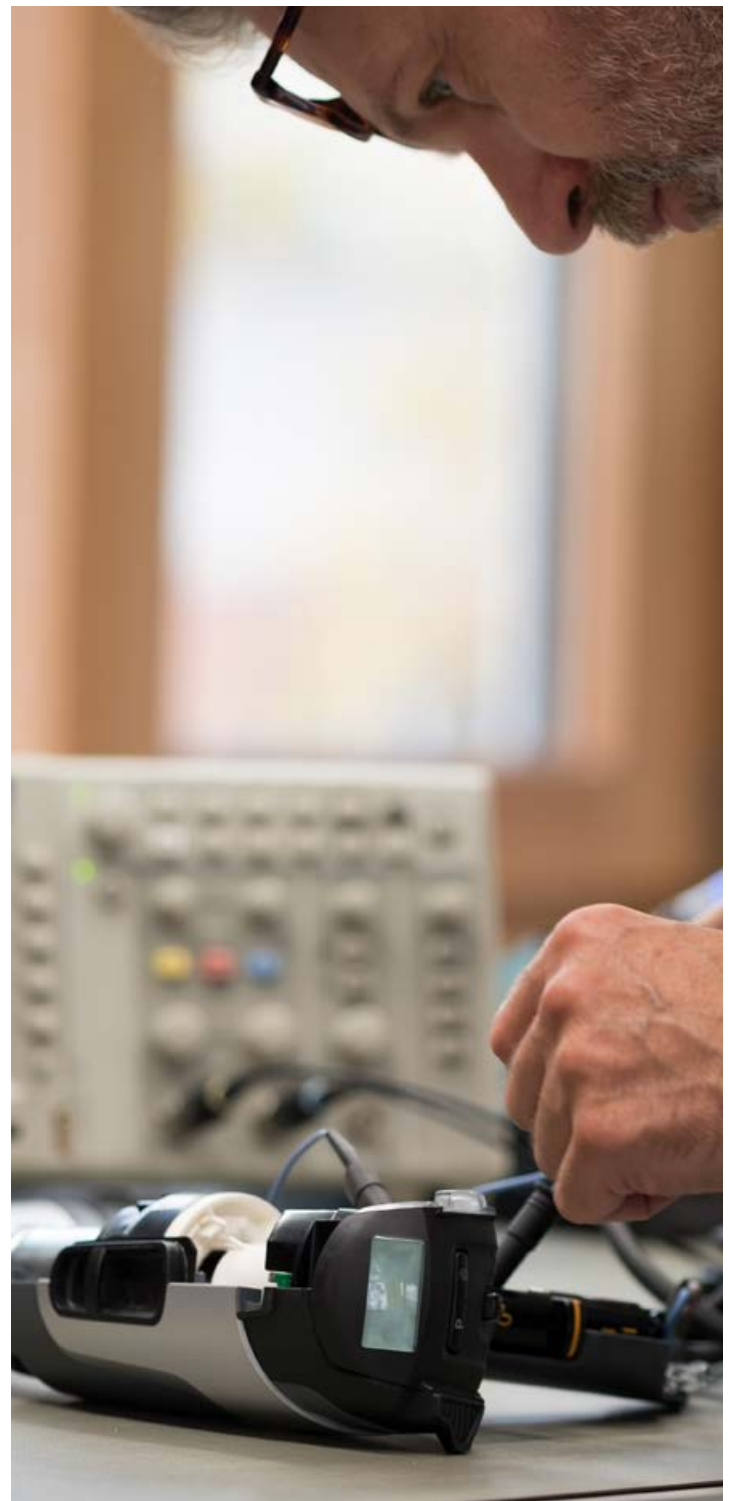

Customer support on the end of the phone.

We value our proximity to the heatworkers of the world. If you have any questions about products or applications, please contact STEINEL Customer Service

Mon – Fri: 8 a.m. to 8 p.m., Sat 9.30 a.m. to 4 p.m.
